The Amerimax Story

Over the decades, Amerimax Windows & Doors has developed a reputation for innovation and excellence. Our unparalleled product quality and customer service are supported by a large network of trained, authorized dealers and by a comprehensive warranty program. Amerimax redesigned its entire product line in recent years, taking advantage of our best-in-class manufacturing processes to incorporate the latest architectural design trends, as well as the most energy-efficient features and materials.

Americoat Exterior Color Options

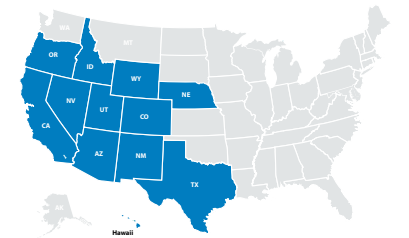

In addition to its traditional line of windows and doors, Amerimax now offers unique Multi-Slide, Folding, and Swing Doors. All Amerimax products are fully warrantied, and are rated among the most popular and best-performing replacement windows and doors in the market.

As of 2020, Amerimax Windows & Doors is a wholly owned subsidiary of Cascade Windows.

Amerimax Windows offers a variety of window designs and frame styles

Craftsman Portrait Window Series

Every detail of the Amerimax Craftsman Portrait Window is carefully designed to add beauty and value to any home. The multi-chambered, beveled frame glides smoothly on its brass roller system in a low-friction, monorail track, and the tight seal and dual-action locks protect the home from inclement weather and forced entry.

Cam Lock

White

Auto-Lock

White

Features & Benefits

- Multi-chambered, slim-line extrusion design for maximum strength and viewing
- Integral contour pull rail provides rigidity and ease of operation
- Fusion-welded frame and sash construction creates superior strength
- Brass roller system glides on a monorail track, for efficient weight distribution
- Positive interlock system is triple-sealed, with structural metal reinforcement
- Secure, dual-action cam locks provide a tight seal and resist forced entry
- Dedicated pocket sill design includes triple weather-stripping

Glass & Grid Options

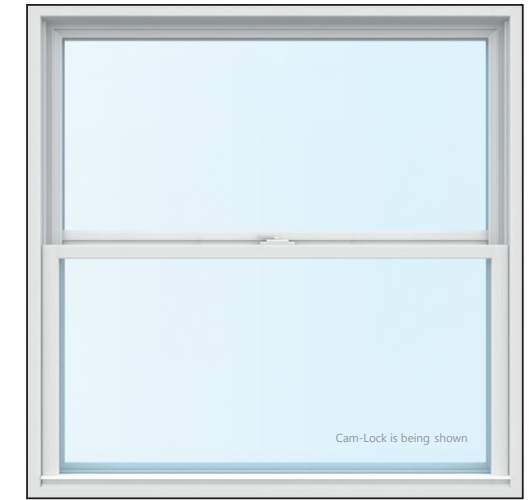

- Multiple, high-performance glazing options to meet your specific requirements
- Argon gas and Premium Super Spacer support energy efficiency
- 5/8" standard flat and 5/8" Euro grids or 1" Sculptured Internal Grid options

Vinyl Colors & Hardware

- White, Desert Sand, or Americoat exterior painted colors
- Color-matched hardware available in White and Desert Sand
