Millwork that creates distinction.™

THE 2018
BLACK BOOK
OF MOULDING

**INTERIOR / EXTERIOR
MOULDING POCKET GUIDE**

MDF | FJ PINE | HARDWOODS | SOLID PINE
VG DOUG FIR | REDWOOD | BODYGUARD®

THE 2018 **BLACK BOOK** OF MOULDING

You'd be lost without it.

This little black book is your own pocket guidebook to mouldings — all the details you need in one place to ensure that every job you do is better than the last.

EL & EL Wood Products

Millwork that creates distinction.™

ELandELWoodProducts.com

Go Green

EL & EL supports responsible forest management for all of our products. Many of the products that we distribute, qualify to earn LEED points for Green Building Products. By acquiring our FSC® Chain of Custody Certification (FSC-C010058), we are doing our part to ensure that our natural resources will be protected for future generations.

FSC is the most recognized green certifier in America, however, there are many green products that are not FSC certified, yet meet similar requirements and specifications for responsible forestry management.

Ask an EL & EL sales representative about available FSC certified products.

**The mark of
responsible forestry**

General Disclaimer

Shapes and sizes listed are typical only and are subject to change without notice. Delivered sizes may vary by $\pm 1/16$ " depending on various conditions including, but not limited to: variances in mill production, condition of milling knives, human error, and/or specification changes/adjustments by EL & EL between printed publication dates.

If exacting specifications are crucial to your project, please contact an EL & EL sales representative to discuss your needs. We will work with you to deliver the results you desire.

*LENGTHS VARY PER PROFILE

NOTE: Hardwood mouldings are generally available in lengths 12' and shorter. Please check availability for lengths longer than 12'.

**EXTERIOR USE:**

Items with this symbol are for exterior use

**PRE-MITERED CASING:**

Available in 7" mitered pairs or sets

**NEW ITEM:**

Items with this symbol are new for 2017-2018

How to Use the Little Black Book

All items are separated into their respective categories (e.g. Casing, Base, Crown). Within each category, items are ordered by size from smallest to largest. For example, if you are looking for a 7-1/4" base, go to the Base section, find the 7-1/4" size, and all 7-1/4" profiles will be found together.

Part Description	→	1 Eased Edge Craftsman Base
Size	→	7/16 x 3-1/2
Part#	→	387MUL-3 Ultralight MDF N/S
Old Part# & Location	→	Formerly 388MUL-3 ▼
Species	→	PR387FJ-3 Primed FJ Pine N/S
In-Stock Location	→	

Each item is listed with an in-stock status designation, showing standard stocking by EL & EL location at the time of printing. An 'S' denotes the part is in-stock at our Southern California facility, an 'N' denotes the item is in-stock at our Northern California facility, and an 'N/S' denotes the item is in-stock at both facilities.

For your convenience, older part numbers are shown just below the current part number.

Interior Door Jamb Specifications:

5 pairs/bundle

Thickness: 1 1/16"

3/0 Heads: 36-3/4" (cut 3/4" over opening)

6/8 Sides: 81" below dado (Nor. Cal. & AZ)*

80-5/8" below dado (So. Cal.)*

8/0 Sides: 97" below dado (Nor. Cal. & AZ)*

96-5/8" below dado (So. Cal.)*

Dado depth: 3/8"

* Check with a sales representative for dado spec availability in your region.

Lineal Lengths Available

6'-10'	Superior & Knotty Alder
6'-12'	Oak
3'-16'	Engineered VG Fir
6'-16'	MDF, Raw & Primed FJ Pine, Poplar, Cherry, Mahogany

• Solid Pine jambs may have a glue line where door stop is applied.

• Random lengths only available in most solid wood species.

ENGINEERED DOUGLAS FIR JAMBS & FRAMES

Superior Performance from a Superior Product

Solid VG Fir has become scarce. Due to lack of sourcing, Engineered (Eng.) Jambs are now being supplied in their place.

Eng. Vertical Grain Fir Interior Door Jambs

Eng. Vertical Grain Fir Exterior Door Jambs with Kerf for Weatherstrip

Eng. Vertical Grain Fir Exterior Door Jambs without Kerf for Weatherstrip

1. Rippable edges allow infinite on-site adjustments.
2. Dents and sanding are no problem for the 9/16" thick top.
3. Strong and durable solid wood rabbet: color & grain matched to the body.
4. Same species Vertical Grain FJ substrate further minimizes cupping.
5. Environmentally responsible FJ substrate reduces waste.
6. Edge glued construction relieves stresses to minimize cupping.

Features and Benefits:

- Available in standard sized door lengths with little to no waste.
- **Strength**—100% Douglas Fir fiber combined with an exterior rated glue that bonds stronger than the wood itself, ensuring this jamb can handle the stresses and wear of any type of door.
- **Stability**—an engineered jamb is far more dimensionally stable than a one-piece jamb leg (especially in Mixed Grain). The laminations of an engineered jamb reduce the internal stresses that cause the wood to cup, twist, and/or bow.
- **Premium Quality**—both the body and rabbet of the jamb have been stringently graded to be clear of any defects and are hand selected to match in both fiber color and grain.
- **Environmentally Friendly**—the fingerjoint substrate is composed of Vertical Grain Douglas Fir that would have typically been fall down or waste material, using more of every harvested Douglas Fir tree.
- **Reliability**—using only one species in the engineered construction makes the jamb react evenly to any changes in humidity and temperature. Preventing delaminating or cupping that can occur when multiple species are used.
- **Durability**—there are no concerns in sanding or steaming out any dents during the life of the jamb.
- **Flexibility**—both edges are rippable to accommodate custom sized door openings.

VG FIR JAMBS & FRAMES

**EXTERIOR DOOR JAMBS/FRAMES** **Standard Exterior Door Frame**for 1-3/4' Doors with 1/2" x 1-13/16" Door Rab't

PLINTH & BASE BLOCKS

ALSO AVAILABLE FROM EL & EL

MAJESTIC Mantels Shelves & Surround Kits

Majestic Mantels by EL & EL are available in MDF, Poplar, Oak, and Embossed/High Relief. These styles of shelves are "flush mount," with a bottom projection of 3-1/4" inches. All shelves are available in 2'-6' lengths, and 9 different styles (custom lengths and styles are available).

MDF (Medium Density Fiberboard) is made from wood fibers and is a great low cost alternative to wood. Its hard surface resists dents and scratches and its low cost will save you money on your painted applications.

Majestic poplar mantels are made of solid clear poplar that can either be painted or stained.

Oak mantels are made of clear red oak and ideal for staining.

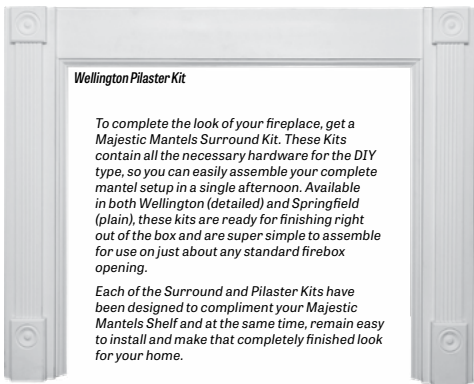

Embossed/High Relief mantels are made from clear poplar.

Carolina MDF Majestic Mantel

Large Dentil Oak Majestic Mantel

Wellington Pilaster Kit

To complete the look of your fireplace, get a Majestic Mantels Surround Kit. These Kits contain all the necessary hardware for the DIY type, so you can easily assemble your complete mantel setup in a single afternoon. Available in both Wellington (detailed) and Springfield (plain), these kits are ready for finishing right out of the box and are super simple to assemble for use on just about any standard firebox opening.

Each of the Surround and Pilaster Kits have been designed to compliment your Majestic Mantels Shelf and at the same time, remain easy to install and make that completely finished look for your home.

ALSO AVAILABLE

Bullnose Base Corners

Many homes today offer the look of eased rounded corners, called bullnose corners, where drywall edges meet. These rounded edges soften and enhance the look of the house.

When baseboard is installed, radius corners continue the eased corner look, creating a beautiful and elegant enhancement at very little cost.

Radius corners can be manufactured in any wood species.

All base profiles are available in radius corners for 3/4" drywall corners. Custom radius corners are available upon request.

Straight moulding fits flush to radius corner blocks, making professional installation quick and easy.

ALSO AVAILABLE FROM EL & EL

ValuFlex™ Flexible Mouldings

EL & EL Wood Products Corporation manufactures on its premises, ValuFlex Flexible Mouldings, using the highest quality urethane available in today's market. With ValuFlex, you get all the advantages of radiused wood at a fraction of the cost.

Most products in our catalog are available in flexible moulding. Custom profiles are available and made to order, upon request.

BENEFITS OF USING VALUFLEX FLEXIBLE MOLDING

- Superior Lead Times
- Match Any Profile
- Paints & Stains Beautifully
- Incredible Detail
- Custom Profiles Available
- Limited 5-Year warranty against cracking or splitting
- Tear Resistant
- Minimal Shrinkage

GENERAL INFORMATION ON VALUFLEX

- Just about every EL & EL wood moulding profile can be reproduced in ValuFlex Flexible Moulding.
- ValuFlex is our standard resin flexible moulding and can be used for all profiles. We use only the highest quality urethane on all ValuFlex products for a strong tear resistance. This also ensures little to no shrinkage, a softer more pliable product, easy to install, and a 5 year warranty against cracking or splitting.
- All urethane is sold by the whole foot only. The minimum length is 5' and the maximum mold length is 12', however to receive material longer than 12' a process is now available to achieve longer lengths at an additional cost.
- Select paintgrade moulding profiles (such as 304, 310, 311, 314, 329, and 330) are available in 50' rolls. Call for stain-grade available lengths.
- ValuFlex is sold in straight and pre-formed pieces:
 - Straight pieces are used for standard base, chair rail and jamb applications.
 - Casing, crown and built-up applications require pre-formed pieces. Pre-formed pieces are achieved by providing precise measurements, radius or a template. Pre-formed pieces only have a variance of approximately 1" to 2", hence the importance of precise information.
- Curved crown applications, by far the most diverse, require a few simple rules of thumb (see "Calculating Radiussed Moulding" on the next page) to easily accomplish a perfect fit without stressing the material. A built-up is several pieces of mouldings put together, making a more dramatic application.

*ValuFlex Flexible Mouldings are warranted for indoor use only.

Simple Solutions™ Miterless Radius Crown Corners

Simple Solutions is a new resin miterless radius crown corner solution to ease installation and create a great finished look. No mitering, no difficult angle configurations, no need for additional material (in case of mitering errors) and best of all, Simple Solutions crown corners will enhance and add architectural beauty to any home. Simple Solutions miterless crown corners are made specifically to match most Ultralight MDF (MUL) crown profiles only and are available for inside, outside and bullnosed corners.

ALSO AVAILABLE

**ALSO AVAILABLE FROM EL & EL****HB&G™ Columns & Porch Systems****HB&G PermaCast® Columns**

PermaCast® columns, made from structural fiberglass, maintain architectural authenticity and historical accuracy. They can be used as support or decorative columns. They require minimal maintenance and are weatherproof, insect proof, and highly durable.

HB&G PermaLite® Columns

HB&G PermaLite® square and round columns are cost effective, load bearing, weather and insect proof, and require very little maintenance.

HB&G PermaPorch® Railing

The most versatile and natural looking synthetic rail system available. Often mistaken for wood, our low maintenance synthetic rail is made from cellular PVC and is available with aluminum inserts.

HB&G PermaPorch® Ceiling

PermaPorch® Ceiling is another maintenance-free porch product offered by HB&G. It can be used as a beaded ceiling or as an accent to any room, and comes in white.

HB&G PermaPost® Porch Posts

HB&G's PermaPost® porch posts are prefinished and low maintenance. They add an inviting, decorative look to your front porch.

Capitals & Bases

HB&G manufactures the only column capital that provides a sealed cap flashing, preventing weather and the elements from entering the interior of the shaft. This flashing is great for outdoor column installations. HB&G standard capitals and bases are manufactured using foam polyurethane, making them extremely lightweight and economical.

EL & EL also manufactures matching capitals and bases made from high grade urethane that are extremely strong, dense, and durable.

ALSO AVAILABLE FROM EL & EL

Fypon® Polyurethane

Fypon gives design and construction professionals an edge over all other interior and exterior design building materials. Fypon marries style and performance with one of the industry's largest product offerings and best customer service to give our customers a true competitive edge.

Fypon Style

Fypon is the recognized leader in polyurethane product design, innovation and molding technology. From old world style to classic modern design, Fypon offers the largest and most architecturally correct styles and designs of moulding and trim.

- Architecturally correct and historically accurate product styles and designs.
- Our products are designed to capture the texture, patterns and deep shadow lines of classic building materials.
- A distinctive look and personality to complement any home design for maximum appeal.

Fypon Performance

Only Fypon engineers consistent quality and long lasting performance into every product we make. From our popular trim and mouldings, to our balustrade systems and decorative millwork, each product is manufactured by experts in polyurethane molding technology. All Fypon building products:

- Are easy to install with no special tools or extra labor necessary,
- Deliver consistent workmanship and product quality,
- Feature low maintenance,
- Provide weather and moisture resistance,
- Come stain or paint ready,
- Resists insects and won't warp, crack, or split.

**ALSO AVAILABLE FROM EL & EL****White River™ Embossed & Mon Reale Mouldings****Embossed Mouldings**

White River's Ornamentally Embossed Collection offers 80 profiles embossed with classically-inspired motifs to add interest and detail to any interior millwork application. Ornamental motifs are created by applying heat and pressure to solid poplar mouldings that install with standard woodworking tools.

**CR68** Rab't Chair Rail**CM72** Egg & Dart Cornice**Mon Reale Mouldings**

White River's Mon Reale Collection offers 97 opulent classically-inspired, sculptured profiles — their premier line for high-relief details. Mon Reale Mouldings are made from a fine grain overlay contoured to solid poplar moulding that install with standard woodworking tools.

**CM8859** Egg & Lamb's Tongue Crown**BB8111** Petite Acanthus Leaf Back Band**Ultra-Flex™ Flexible Resin Moulding** 

White River's proprietary Ultra-Flex is the most advanced product in the industry for all flexible moulding applications, indoors and outdoors, and can be manufactured for all of White River's profiles. It cuts and nails the same as its wood counterparts and comes with a latex-based primer coat—ready to stain, paint, or glaze.
